

Easy, Effective Fundraising

Get Your Warriors Propelr Card!

Use your Propelr Card at participating merchants and a percentage of your purchase is donated to Lincoln Lutheran.

How it Works:

- 1) Order your card online: www.PropelrCard.com
- 2) Select Lincoln Lutheran as the organization to support
- 3) Card comes in the mail
- 4) Load funds from an existing bank account or direct deposit
- 5) Spend just like a normal debit card

Our list of participating merchants is growing – some donating up to 20%

Get more information at www.PropelrCard.com

Propelr FAQs

How do I get a Propelr card?

Go to www.PropelrCard.com/Activate and click “Sign Up Today”. Simply fill out the form and your personalized card will arrive in the mail in 1-2 weeks. Primary cardholders must be at least 18 years old to sign up.

How do I get additional cards for my spouse or kids?

Once you have signed up for your primary card, log into your account (www.PropelrCard.com/Activate). Go to the “My Cards” tab and select “Order Additional Cards”. Select whether you would like the additional card to share a balance with the primary card or have a separate balance.

How do I add and verify my bank account?

To protect your money, we require all users to go through a bank verification process. After you enter your bank account information, we deposit two micro-deposits into that account (less than \$1). By logging into your Propelr Account and entering in the amounts for the micro-deposits, you are verifying that it is your bank account and that you have access to it. For step-by-step instructions on how to verify your bank account go to

www.propelrcard.com/cardholder-resources/

Is there a minimum/maximum load amount or card balance?

Yes, each load must be between \$50-1500. There is no minimum balance required, but there is a \$3000 maximum carrying balance.

How do I load my Propelr card?

Your Propelr card can be loaded either through bank transfers or direct deposit. To see step-by-step instructions go to www.propelrcard.com/cardholder-resources/

Direct Deposit:

The easiest way to load your Propelr Card is through direct deposits from your employer. Using this method, either a percentage or a set amount will be put on your Propelr Card with each paycheck.

Balance Threshold:

Balance thresholds transfer money based on the card balance. Simply set the threshold balance that you want to trigger a load, and then whenever you dip below your funds will automatically transfer.

One Time or Recurring Load:

This is exactly what it sounds like – set up a one time or recurring transfer from your bank account.

How do I load additional cards?

The primary card may load funds onto any additional card by doing a card-to-card transfer.

Are there any usage fees associated with my card?

There are no fees to order your card, load your card, or use the card. There would be a fee if the card is not used at all for six months, but we will provide inactivity reminders and accounts can be cancelled at no charge.

Why does Propelr ask for your Social Security Number when Cardholders order their card?

Federal anti-money laundering laws require Propelr to verify the identity of potential cardholders before we issue them a card. We run an “OFAC check”, which checks a list, provided by the Office of Foreign Assets Control, of individuals that are not allowed to transact currency in the United States due to involvement in terrorism, narcotics, and other disreputable activities. Providing your social security number in no way affects your credit or authorizes a credit check as Propelr is a prepaid card.

The Card that Cares.
